TO IMMEDIATE DUBLIN TELEGRAM NUMBER GUIDANCE 212 OF 15 SEPTEMBER AND ROUTINE TO CERTAIN MISSIONS.

CS RIOT CONTROL AGENT.

1. FOLLOWING THE USE OF CS AS A RIOT CONTROL AGENT IN NORTHERN IRELAND DURING 1969 AN ENQUIRY WAS SET UP INTO ITS MEDICAL AND TOXICOLOGICAL EFFECTS. AN INTERIM REPORT OF THE ENQUIRY, WHICH WAS HEADED BY SIR HAROLD HIMSWORTH, FORMER SECRETARY TO THE MEDICAL RESEARCH COUNCIL, WAS PUBLISHED ON 6 OCTOBER 1969 (GUIDANCE TELEGRAM NUMBER 2Ø2 OF 6 OCTOBER 1969 REFERS). THE AUGMENTED COMMITTEE'S REPORT (SEE BELOW) WAS PUBLISHED TODAY 15 SEPTEMBER.

INSTRUCTION FOR USE.

2. THE WHOLE OF THIS GUIDANCE MAY BE USED ATTRIBUTABLY IN ANY WAY POSTS CONSIDER NECESSARY. THE MATERIAL IN PARAGRAPH 8 HOWEVER SHOULD NOT BE VOLUNTEERED.

INTERIM REPORT.

3. IN THE INTERIM REPORT IT WAS RECOMMENDED THAT IN CONSIDERING THEIR EFFECTS, CHEMICAL AGENTS THAT MIGHT BE TAKEN INTO USE FOR CIVIL AND RIOT CONTROL PURPOSES SHOULD BE ASSESSED AS DRUGS RATHER THAN AS NEW WEAPONS. THE MEMBERSHIP OF THE ORIGINAL COMMITTEE WAS THEREFORE EXPANDED TO INCLUDE PERSONS WITH THE RELEVANT SPECIAL KNOWLEDGE TO ASSESS MORE WIDELY THE EVIDENCE RELATING TO THE TOXITY OF CS.

HIMSWORTH REPORT PART II.

4. PART II OF THE COMMITTEE'S REPORT WAS PUBLISHED TODAY. IT CONFIRMS THE MEDICAL FINDINGS OF THE PART I REPORT AND ALSO THE ASSESSMENT PREVIOUSLY GIVEN TO THE GOVERNMENT BY ITS OWN ADVISERS. IT IS ONLY UNDER QUITE EXCEPTIONAL CIRCUMSTANCES THAT EXCESSIVE DOSES OF INHALED CS COULD BE RECEIVED THAT MIGHT CAUSE SERIOUS INJURY OR DEATH: AND IN THE CONDITIONS OF CIVIL

/OPERATIONS

00056

OPERATIONS WITH DISCIPLINED TROOPS AND POLICE, IT IS HIGHLY IMPROBABLE THAT SUCH CIRCUMSTANCES COULD ARISE. THERE IS NO EVIDENCE THAT THE YOUNG OR ELDERLY ARE ESPECIALLY SUSCEPTIBLE TO ITS ACTION, NOR IS IT CONSIDERED THAT CS AFFECTS THE COURSE OF PREGNANCY OR LEADS TO THE PRODUCTION OF CONGENITAL ABNORMALITIES. A CLAIM THAT CS IS ESPECIALLY DANGEROUS BECAUSE OF ITS ABILITY TO PRODUCE CYANIDE IN THE BODY AND THAT THIS, IF MAINTAINED, COULD CAUSE PERMAMENT BRAIN DAMAGE HAS BEEN PROVED IRRELEVANT AS THESE EFFECTS COULD ONLY ARISE IF CS WERE INJECTED INTO THE BLOOD STREAM.

5. ALTHOUGH AN ASSESSMENT OF THE LONG-TERM EFFECTS MUST AWAIT THE COMPLETION OF SURVIVIAL EXPERIMENTS AT PRESENT IN PROGRESS, THERE ARE AT PRESENT NO EXPERIMENTAL INDICATIONS THAT EFFECTS LIKE CANCER MIGHT DEVELOP AFTER RECOVERY FROM THE EARLY EFFECTS OF INHALED CS.

6. IN ADDITION, THE COMMITTE HAS MADE CERTAIN RECOMMENDATIONS IN CONNECTION WITH THE FUTURE USE OF CS, OF WHICH THE MAIN ONES ARE:-

(A) THE MAKING AVAILABLE OF A SMALLER CARTRIDGE AS AN ALTERNATIVE TO THE STANDARD ONE OF 12.5G, FOR EVICTING ARMED CRIMINALS OR MENTALLY DERANGED PERSONS WHO ARE ''HOLED UP''.

(B) IF CS IS USED IN BUILT-UP AREAS, CARE SHOULD BE TAKEN TO SEE THAT MISSILES DO NOT ENTER ROOMS INADVERTENTLY AND IF USED AGAINST PERSONS IN BUILDINGS DELIBERATELY THIS SHOULD ONLY BE ON AN EXPLICIT AUTHORISATION FROM THE SENIOR OFFICER PRESENT.

(C) WHEN A PELLET GRANADE (''BURSTING'' GRENADE) IS ABOUT TO BE USED, THERE SHOULD BE A WARNING TO PEOPLE TO KEEP THEIR EYES CLOSED.

(D) IF A CHEMICAL AGENT IS TO BE RELEASED FOR CIVIL USE THE MEDICAL AND SCIENTIFIC RESEARCH RELEVANT TO THIS DECISION SHOULD STRAIGHTWAY BE PUBLISHED IN SCIENTIFIC JOURNALS.

7. THE GOVERNMENT HAVE WELCOMED THE REPORT. ITS RECOMMENDATIONS HAVE BEEN ACCEPTED AND THOSE AT (B), (C) AND (D) ABOVE ARE BEING PUT INTO EFFECT. THE RESEARCH AND DEVELOPMENT TO MEET THE PROPOSAL AT (A) IS IN HAND.

CS AND THE GENEVA PROTOCOL.

8. THE 1925 GENEVA PROTOCOL IS CONCERNED ONLY WITH THE USE IN WAR OF CHEMICAL AND BIOLOGICAL WEAPONS: IT HAS NOTHING WHATEVER TO DO WITH THE USE OF RIOT-CONTROL AGENTS SUCH AS CS FOR INTERNAL SECURITY PURPOSES, WHICH IS THE SUBJECT OF THE HIMSWORTH REPORT.

14 September, 1971

I am sorry I have not replied earlier to your letter of the 22nd July about the application by Messrs. Webley and Scott for an export licence to send a sample 1½" Anti-Riot Gun to the USA, but as you will understand I have wanted to look closely at this.

It is true that the events which earlier seemed to make it wiser not to agree the export have now receded further in time and the publication tomorrow of Sir Harold Himsworth's Report on CS should further justify its use in internal security situations. In view of this and of the arguments which you put forward in your letter, we are now prepared to withdraw our objection and to agree that the export licence may be granted.

I am sending a copy of this letter to Joseph Godber.

From The Minister of State

6 August, 1971.

DESPATCHED BY MINISTER OF STATE'S OFFICE

I have seen your letter of 22 July to Robin Balniel about the issue of an export licence for Webley and Scott to send a sample 1½" anti-riot gun to the United States.

I did not comment on your previous letter since Alec Douglas-Home was considering foreign policy implications of this application, together with a related application for the export of bulk CS to Sweden. He has come to the conclusion that since CS is harmless and we use it ourselves we should approve its export to the Swedes and, even more, to our friends and allies.

In these circumstances I agree with you that there does not seem to be any logic in a continued refusal of a licence to export to the United States the gun which fires CS canisters. We could in fact be placed in a somewhat embarrassing position if we had to justify in public the refusal of a licence for export to the United States, when we permit exports to other destinations (I understand that the Ministry of Defence have under consideration at this time an application to export the Webley and Scott pistol to Mexico, which we would not oppose).

I therefore agree to an export licence being issued in this case.

WEBLEY AND SCOTT LIMITED: APPLICATION FOR LICENCE TO EXPORT A $1\frac{1}{2}$" ANTI-RIOT GUN TO THE UNITED STATES

PROBLEM

1. The Parliamentary Under-Secretary of State at the Department of Trade and Industry, Mr Grant, has again written to the Minister of State for Defence pressing for a reversal of their earlier decisions to refuse Webley and Scott Limited a licence to export to the United States an anti-riot gun firing CS canisters. Lord Balniel had replied to an earlier letter from Mr Grant on the same subject opposing an export licence.

RECOMMENDATION

2. I recommend that Mr Godber should write to Mr Grant on the lines of the attached draft which has been agreed by Defence and Disarmament Departments.

BACKGROUND

3. A submission to Mr Godber on Mr Grant's earlier letter was held over pending a decision on a further submission, to the Secretary of State, which linked Mr Grant's request with a request for the approval of the supply of $1\frac{1}{2}$ cwt of bulk CS to Sweden. This submission recommended that the sale of CS to Sweden should be approved and that a decision on the export of the gun to the United States should be referred to DOP(SE) Sub-Committee, after a statement had been made about the exclusion of CS Gas from the Geneva Protocol. Lord Lothian agreed with this recommendation but said that he hoped that no announcement on CS Gas would be made in the immediate future. The Secretary of State however

commented:

"No statement. I questioned whether we ought to make it. I think as we do make the stuff and say it is harmless we should export it to the Swedes and even more so to friends and allies."

4. By implication therefore the Secretary of State has, so far as the FCO are concerned, approved in principle the export of CS to the United States (though in fact this would probably never happen because the US manufactures it herself). There seems little logic in continuing to maintain reservations on the export to the United States of the Webley and Scott pistol which fires the canisters.

5. Since this particular case is already the subject of inter-Ministerial correspondence, we should express our views on it at the same level. Normally, applications for export of anti-riot equipment ~~to countries which are on the "sensitive" list (this includes the US at present)~~ are referred to the inter-Departmental Arms Working Party machinery, with reference to the Ministerial Committee on Strategic Exports where appropriate.

6. We are at present holding up a decision on political approval for two other applications for export licences because of the uncertainty over the application for export to the US. One is from Schermuly Limited for the export to the US of anti-riot irritants, equipment for delivering irritants, and batons: and the other from Messrs Webley and Scott for the export to Mexico of a 1½" anti-riot pistol similar to the one with which Mr Grant's letter is concerned. If the above recommendation is accepted it will be logical for us to approve them.

about the exclusion of CS Gas from the Geneva Protocol. Lord Lothian agreed with this recommendation but said that he hoped that no announcement on CS Gas would be made in the immediate future. The Secretary of State however commented:

"No statement. I questioned whether we ought to make it. I think as we do make the stuff and say it is harmless we should export it to the Swedes and even more so to friends and allies".

4. By implication therefore the Secretary of State has, so far as the FCO are concerned, approved in principle the export of CS ~~gas~~ to the United States (though in fact this would probably never happen because the US manufactures it herself). There seems little logic in continuing to maintain reservations on the export to the United States of the Webley and Scott pistol which fires the canisters.

5. Since this particular case is already the subject of inter-Ministerial correspondence, ~~and~~ we should express our views on it at the same level. ~~But~~ Normally applications ~~are dealt with by~~ for export of anti-riot equipment to countries which are on the "Sensitive" list are referred to the inter-Departmental Arms Working Party machinery, with reference to the Ministerial Committee on Strategic Exports ~~in case of doubt~~ where appropriate. ~~[We shall of course submit on any applications which in the particular circumstances of the time it seems undesirable to grant.]~~

(this includes the U.S. at present)

6. We are at present holding up a decision on political approval for two other applications for export licences because of the uncertainty over the application for export to the US. One is from Schermuly Limited for the export to the US of anti-

END

I hope you will agree that we should no longer be bound by the circumstances of 1968, but can now consider the matter on its merits and grant a licence.

I am sending a copy of this letter to Joseph Godber.
